Why visit us?

If you are studying 17th century history, the Cromwell Museum can bring the past to life for you. Meet a civil war soldier, try on armour, explore real artefacts and documents, all while discovering how Oliver Cromwell rose from humble origins in Huntingdonshire to shape the history of an entire country.

Our workshops and resources allow students to come face to face with Oliver Cromwell and explore his life. They will have the opportunity to view and interpret objects that belonged to him and documents that were written by him in order to learn how to make and understand historical arguments based on evidence.

Oliver Cromwell was born in Huntingdon, and later lived in St. Ives and Ely, making him an ideal choice for a local history study. Through studying his life, students can explore themes and topics such as causes and events of the British Civil Wars, the Interregnum and Ireland, history of democracy and parliament in Britain, and society and culture throughout the 17th century.

Our workshops and resources are designed with the national curriculum and exam boards in mind, and use the objects, paintings, and documents in our collection, as well as our expert staff and talented costumed e-enactors, to bring Oliver Cromwell and the British Civil Wars to life.

Workshops

KEY STAGE 3

History

Who was Oliver Cromwell? – Examine objects, portraits, and more to learn about the life of Oliver Cromwell, who was born and raised in Huntingdon and later lived in St. Ives and Ely. Make up your mind about what kind of man he was, discover whether he really banned Christmas, and learn about the events of his life. This session is ideal for local schools doing a local history study. An optional follow up activity in the classroom gives students the chance to select items for their own ‘Cromwell Museum’. This session can be offered either as an on site visit, or virtually.

Evidence for Cromwell and his Life – Explore objects, portraits, and documents to discover facts and opinions about Cromwell’s life, learn to distinguish between the two, and ultimately decide on your own opinion of Cromwell based on evidence. This session can be booked as part of a topic pack with the Norris Museum, with a loans box included for use in the classroom for free.

Civil War! – Why was there a Civil War in this country? Discover the causes and events of the Civil Wars, and what life was like for those who fought in them. Examine original arms and armour, handle replica items and meet a real Civil War soldier.

Cromwell’s Huntingdon – Take a tour of historic Huntingdon! Discover what Huntingdon looked like during Cromwell’s childhood, and explore how it has changed since then. This session can be a stand-alone tour, or it can run concurrently with another workshop at the Museum, with groups split in half and switching off on activities.

Art and Design

Pictures of the Past – What do portraits tell us about people from the past? Examine our remarkable collection of portraits to find the clues about the people in them. Then, create your own portrait in your sketchbook. This session can be offered either as an on site visit, or virtually.

GCSEs AND A-LEVEL

We will tailor our workshops and talks to fit your needs. With enough notice, we can create a custom session for your class focusing on Huntingdon’s history, Crime and Punishment (using the 17th century courtrooms in Huntingdon Town Hall), or the role of Museums, Heritage Management and Tourism. These sessions can all be delivered either on-site or virtually, and are great revision tools, in which students can get help with areas they may have difficulty in understanding and gain alternate perspectives on particular issues.

Discussing Cromwell – In our most popular workshop, tour the Museum with our Curator and examine original objects, then participate in a Q&A session with him and other experts. Topics can include: the life of Oliver Cromwell; his role in the Civil War, the trial and execution of Charles I, and the Protectorate; the short and long term legacy of Cromwell and the Civil Wars.

Civil War! – This talk explores the causes, events, and short and long-term impacts of the British Civil Wars. Topics can include: the road to war including the role of social, political, and religious divisions; the creation and importance of the New Modelled Army; the subjugation of Ireland; imperial expansion and the Western Design; the Commonwealth; the Protectorate; the Restoration. This session includes a Q&A session with our Curator and other experts.

ABOUT THE CROMWELL MUSEUM

The Cromwell Museum holds the best collection of objects relating to the life and times of Oliver Cromwell on public display in the world. The collection consists of over 800 items, including personal items belonging to him and his family, portraits, arms and armour, and historical documents written by or about Cromwell.

Oliver Cromwell (1599 – 1658) is one of the most important figures in British history. As a result of the English Civil Wars of the mid-17th century he became a soldier and a statesman of lasting fame and influence. He is the only commoner ever to have been the head of state in England. Cromwell is still a very controversial figure in British history, hated by some, held as a great man by others. The Museum aims to tell his story 'warts and all', and allow visitors to make their own minds up about him.
